

Scupper Roof Drain

Model: **SPR-D3-L9** | 3" Diameter | 9" Long Pipe

- Scupper Roof Drains are for flat or low pitch roofs
- Designed to drain rain and melting snow
- Constructed of durable rust-free aluminum
- Lets water pass through a parapet wall to an outside drain pipe
- Aluminum thickness is .025"
- Designed to be leak free
- Drain pipe is 3" diameter by 9" long
- Prevents damage from pooling water by providing a designated drainage path
