

1.25"  $\longleftrightarrow$  1.25"

- 
- A perspective view of a square metal duct with a flange. The duct is made of a dark, reflective material, likely stainless steel. It has a square cross-section with a central opening. The bottom edge of the duct is flared out into a flat, square flange. The flange is secured with four visible bolts or rivets at the corners. The duct is shown against a plain white background.

## Roof Curb Flashing Detail

A diagram of a circular structure. It features a central white circle with a red border. Surrounding this central circle is a ring of blue, wavy, hair-like structures, resembling a cell membrane or a microorganism.
